

Alanine aminotransferase (ALT)	2	2	2	3	3	2	3	2
Alpha-fetoprotein (AFP)	1	1	1	1	1	1	1	-
IgG antibodies against Herpes simplex virus (type 1)	1	1	1	2	1	1	1	1
IgG antibodies against rubella virus	1	1	1	2	1	1	1	1
IgG antibodies against toxoplasma (Toxoplasma gondii)	1	1	1	2	1	1	1	1
IgG antibodies against cytomegalovirus	1	1	1	2	1	1	1	1
IgM antibodies against Herpes simplex virus (types 1,2)	1	1	1	2	1	1	1	1
IgM antibodies against rubella virus	1	1	1	2	1	1	1	1
IgM antibodies against toxoplasma (Toxoplasma gondii)	1	1	1	2	1	1	1	1
IgM antibodies against cytomegalovirus	1	1	1	2	1	1	1	1
Thyroglobulin antibodies (TGAb)			1	1	1		1	
Thyroid peroxidase antibodies (TPO)			1	1	1		1	
Aspartate aminotransferase (AST)	2	2	2	3	3	2	3	2
Bacterial sowing on Streptococcus agalactiae (Streptococcus group B, urogenital material) + antibioticograma	1	1	1	1	1	1	1	1
Bacterial swab culture (urogenital) + antibioticograma	-	-	2	2	1	-	1	-
Urine culture + antibioticograma	1	1	2	2	2	1	2	1
Bilirubin (fractional): indirect, direct, and total	2	2	2	4	3	2	4	2
24-hour urine protein test	1	1	2	4	4	1	4	1
Protein urine test	3	3	4	6	6	3	6	3
Prenatal screening in the first trimester (PAPP-A, free beta-hCG, risk calculation)	1	1	1	1	1	-	-	-
Prenatal screening in the second trimester (AFP, beta HCG, risk calculation)		1	1	1	1	1	1	-
Administration of Anti-D Immunoglobulin (RESONATIVE- 2 ml)			1	1	1		1	
HIV test	3	3	3	3	3	2	2	2
Hepatitis B virus (HBV) HBsAg (Australia antigen)	1	1	1	1	1	1	1	1
Hepatitis C total antibodies	1	1	1	1	1	1	1	1
Glycated haemoglobin (HbA1c)			2	2	2		2	
Blood glucose test	3	3	4	6	5	3	5	3
Glucose tolerance test (two measuments)	1	1	1	2	1	1	2	1

Blood type + Rh factor test	1	2	2	2	2	2	2	2
Rapid detection of amniotic fluid leakage	-	1	2	2	2	1	2	1
Estradiol	-	1	1	2	2	-	-	-
Clinical urine test	10	10	12	14	12	9	12	8
Total protein	2	2	2	3	3	2	3	2
Iron	-	-	1	2	2	-	2	-
On AB0 blood type system immune antibodies against red cells (hemolysins)	-	1	2	3	3	1	2	1
Immune antibodies against red cells on Rhesus group system	2	4	6	8	6	4	6	4
Invasive prenatal procedure (amniocentesis) with karyotyping in the abortion material	-	-	1	1	-	-	1	-
PIGF (diagnostic)	-	1	1	1	-	-	-	-
Potassium	-	-	1	2	2	-	2	-
Calcium	-	-	1	2	1	-	1	-
Complete blood count + ESR + manual leukocyte count	3	3	4	6	5	3	5	3
Coagulogram (PT, INR, PTI, aPTT, TT, fibrinogen)	2	2	3	4	4	2	3	2
Colposcopy	1	1	1	1	1	1	1	1
Creatinine	2	2	2	3	3	2	3	2
Magnesium	-	-	1	1	1	-	1	-
Urogenital smear microscopy	2	2	2	3	3	2	3	2
Sodium	-	-	1	2	2	-	2	-
Non-invasive prenatal DNA test of fetal rhesus factor (RhD) using maternal blood	-	-	-	1	-	-	1	-
On AB0 blood type system immune antibodies against a husband`s red cells (blood of a couple)	-	1	1	1	1	1	1	1
PCR. Chlamydia trachomatis (urogenital scrape, qualitative determination)	-	-	1	1	1	-	1	-
Progesterone	-	2	2	3	2	-	1	-
Urea	2	2	2	2	2	2	2	2
C-reactive protein, quantitative determination	-	1	2	2	2	1	2	1
Free T4	-	-	1	1	1	-	1	-
Testosterone is free	-	-	1	1	1	-	-	-
Free T3	-	-	1	1	1	-	1	-
Thyroid stimulating hormone	1	1	3	3	2	1	2	1

Ferritin	1	1	2	2	2	1	2	2
Cytological examination of urogenital smear	1	1	1	1	1	1	1	1
Clotting time blood test	-	1	1	1	1	-	1	-
Medical risk insurance								
Health insurance policy "Protected pregnancy"	extra paid	+	+	+	+	+	+	extra paid
Other medical care								
Stay and treatment in the pathology department of pregnancy, days (if there are medical indications)	-	1	4	5	5	1	4	1
Stay and treatment in a day hospital (4 hours)	1	1	2	3	2	1	3	1
Installation of an obstetric pessary	-		+	+	-	-	+	-
Medical support of the patient to the maternity hospital	-	1	1	1	1	1	1	1
Artificial abortion for more than 12 weeks (according to medical indications)	extra paid	extra paid	+	+	extra paid	extra paid	extra paid	extra paid
Additional Services								
School of responsible parenting (lectures)	1	4	6	6	4	4	4	4
Fitness classes	-	-	3	4	3	-	4	-
Free breakfast in the restaurant of the maternity hospital "Leleka" (after passing laboratory tests on an empty stomach)	+	+	+	+	+	+	+	+
Deposit								
Deposit, UAH	-	-	1 500	3 000	3 000	-	1 000	-
Laboratory and instrumental diagnostics								
Panel of biochemical researches, hormonal researches, the panel of a diabetes mellitus, cytological researches, the hematological panel, the immunoserological panel, etc. (The full list of laboratory tests can be viewed in the relevant pregnancy contract).								

¹ The cost of pregnancy management packages is indicated in the national currency of Ukraine, taking into account the cost of the "Protected pregnancy" health insurance policy for single-fetal physiological pregnancy.

An obstetrician-gynecologist will help you choose the "Prenatal Care" program and provide more detailed information during the consultation. If you observe pregnancy in the maternity hospital "Leleka" or Maternity Welfare Center in Pechersk, you get special conditions for concluding a contract for childbirth.
